

METAL DETECTORS

VP-HHMD6200-J8 HANDHELD METAL DETECTOR

FEATURES

- Designed for security frisking for detection of restricted objects & weapon screening
- Equipped with a precision sensor that accurately detects various metal objects and reduces missed detections
- Effective in detecting; Ferrous, Non-ferrous metals, conductive metal alloys & ferrites
- Single push button operation for simple & easy usage
- Ergonomic design portable and easy to operate for long periods
- Three-level sensitivity adjustment : low, medium, & high sensitivity levels allow flexible detection for different security environments.
- Audio-visual alerts for power on, metal detection and low battery
- Audio-visual indication through piezo buzzer
- Designed for airports and train stations, customs, police, border security, security forces, prisons, stadiums etc.

TECHNICAL SPECIFICATIONS

VP-HHMD6200-J8

Parameter	Specifications
Type of Metal Detection	Ferrous and Non Ferrous object
Audio Visual Alerts	Supports multiple alerts for: Power on Metal Detection Low Battery Indication
Vibration	Supported
Visual Indicator	LED light
Audio Frequency	2KHz
Sensitivity Levels	Low / Medium / High
Power Supply	2 x AA NiMH rechargeable batteries
Battery Life	Approx. 100 hours continuous operation
Low Battery Alert	Green : Normal operation, Yellow : Low battery ,Red : Battery critically low
Working Current	20MA
Working Voltage	3V
Operating Temperature	-40°C to +70°C
Operating Humidity	98% or less non condensing
Dimension	358mm x 79mm x 43.5mm
Weight	Approx.270 g (excluding battery)
Certifications	CE, FCC, ROHS

*Exact products and specifications shown may vary by geographic region and are subject to change without notice. Product image, weights and measurements are approximate and may vary due to customized solutions & products being offered as per customer requirements.
