

# ENTRANCE MANAGEMENT SYSTEM

## VV-VM7108-TKZ4 HYDRAULIC TYRE KILLER

### FEATURES

The structure has sturdy and durable, stable speed, low noise advantages, can adapt to a variety of working environment.

Mechanical hydraulic drive, simple installation, easy maintenance, high safety performance, long service life.

It Can be combined with other control devices to achieve linkage control.

Hydraulic tire killer can also be operated when power down, does not affect vehicle normal access.

It is an advanced device that intercepts unauthorized vehicles and terrorists, has easy to operate, reliable and safe advantages.

## TECHNICAL SPECIFICATIONS

### WV-VM7108-TKZ4

Parameter	Specifications
Material	A3 steel
Surface treatment	Spray painting
Traffic Light	Red and Green
Device length(mm)	4/5/6/7/8 mtrs
Device width(mm)	500mm
Height(mm)	63mm
Control station size(mm) (on the ground)	456x360x708 (LxWxH)
Load capacity(t)	≤80T
Height of blade rises(mm)	55mm
Thickness of blade(mm)	10mm
Spacing of blade(mm)	140mm
Operation mode	Hydraulic
Output power	550w
Lifting time(s)	1~2s
Certifications	CE, FCC, ROHS

\*Exact products and specifications shown may vary by geographic region and are subject to change without notice. Weights and measurements are approximate and may vary.
